Tatung Einstein TC-01 vintage/retro computer - spares or repair.

Hasn't been used in 30 years other than just recently to do a basic test on it.

When tested it booted and loaded a disk and showed a correct picture on screen but I don't know enough about these to test it further. It is missing key as shown in photo. Note this is broken and can't just be replaced with a key cap from another keyboard. One disk drives tested and loaded a disk. I understand some are double sided drives but I've no idea if this is. It could have other faults or missing parts but as not further tested it is listed as spares or repairs.

Uk postage or collection from St helens, Merseyside.
