Description

TATUNG Einstein BOX computer

in Poland, not very popular, but very friendly computer

when launched, it gives a message on how to switch to floppy disk

then the DIR command and we have the content - to load something, just enter the name of the game / program

the computer is operational - checked, the built-in 3 "drive works flawlessly, it is quiet. It reads the floppy disks (3 pcs) the first time.

the housing has scratches and abrasions - mainly dirt

there is no cracks or cavities

subject to the offer

- Tatung Einstein computer

- three manuals
- three 3 "floppy disks
- box + polystyrene (very nice condition)
- other items visible in the photos are not included in the offer
