### Item specifics

Condition:	Used: An item that has been previously used. The item may have some signs of cosmetic wear, but is ... <a href="#">Read more</a>	Brand:	Tatung
Type:	Desktop Computers & All-in-Ones	Model:	Tatung Einstein TC01
Modified Item:	No	Vintage:	Yes

For sale is a Tatung Einstein TC01 with two disc drives, three manuals and a copy of the system disc to get you going.

I have soak tested this for a good few hours and checked that both drives read and write to disc. I have formatted the included disc in the two drives (side A in 0 and external drive port to copy the system disc from gotek to drive 1. I also copied Jet Set Willy and Manic Miner to side B of the disc. I then used the built in drives to further test. Please consider the included disc to be a blank disc and the contents are there to prove it worked.

I have also connected an 80 column card to the Tatung Pipe connector to check that work ok.

This Tatung is set up to output RGB and works well with a BBC Micro RGB SCART cable (such as the ones sold by the excellent Retro Computer Shack). There is RGB socket on the back which is required to work with most TVs.

The RF picture is actually pretty good on this - the photo of Phroggy was RF, the rest SCART .

No other ports etc. tested as I don't have anything to plug into them.

The keyboard works nicely and is responsive.

Included in the sale:

@ Tatung Einstein computer - test as described and in pretty good condition for the year, please see photos

@ An Introduction to the Tatung Einstein manual

@ DOS/MOS Introduction manual

@ BASIC Reference Manual

@ Copy of system disc (but included as blank)

All three manuals are in reasonable condition.

I can include an RF aerial cable if required - please let me know.

I will disconnect the yellow wire that provides 5V to the RGB socket (see internal photos) before shipping as this is just held in place by clips which could come loose

The two screws at the back holding the top of the case are missing - this came with an 80 column card which uses longer screws and so the original screws are long enough but won't cause any damage).

The ruler is only shown to indicate scale and is not included. :)

And now for the usual caveat - this is over 35 years old so I cannot guarantee how long it will work for.

I am not a business so cannot offer any kind of guarantee or warranty. That said I am happy to offer any help I can after the sale.

Please message me any questions.

Quoted postage is to mainland UK, and to the Highlands only. If outside these areas please contact me as the price may vary (sorry - its out of my control). If the final price is appropriate.

No international shipping due to the size and weight. This is huge and heavy!

A note on postage costs - I charge what I get charged by the courier plus a (very) small allowance for eBay fees, the time it takes to package and take to the post office (so long as it is strong enough).

I will try to post within 2 to 3 days of cleared payment but I have a full time job so cannot guarantee this.

Will be sent in a very sturdy box and insured with a good courier to ensure it arrives OK.

Thanks for looking!
