A very nice example of this 8-bit computer, the Tatung Einstein TC-01

This machine is in super condition, very good cosmetically and most likely because it has been kept underneath a Tatung Einstein cover. The result is excellent plastic, tiny crack at the top of the monitor chassis (shown), but aside from this small detail the case of the computer and monitor is excellent.

The keyboard is a joy, each key has a great feel. I like this keyboard, if you are into this retro then you'll appreciate what I mean.

The screen is sharp, no fuzz or interference, no issues with lines or sync, lovely and bright colours, really good. Taking pictures of a CRT is difficult, but any lines you turn your iPhone sideways! takes a better photo of a CRT)

The disk drive is super smooth and quiet.

Lots of manuals, a joystick and disks.

Some of the disks don't work, maybe lost their content along the way so I cannot guarantee any of the disks. However, you've got BBC Basic, Hitchhikers Guide to

Collection only. Sorry I can't trust Hermes to send this intact; they've let me down so many times. The buyer is welcome to examine and test. I am in King's Lynn.

Selling as a top example of this machine for your collection and enjoyment.
