Item specifics

Condition: **Used** ?

Seller notes: "Fully working and in amazing condition. Please read main description and see photographs."

Model: Tatung Einstein

Brand: Tatung

Tatung Einstein TC-01 Micro Computer.

This Einstein is fully working and is in very good condition.
No scratches, scuffs or other marks at all on the computer.
The polys are very good but the outer box is a bit poor, great for storage though.

I stripped the machine and gave it a thorough clean, including hand cleaning each key, following service tasks and modifications.

- Replace all the electrolytic capacitors on the main PCB for brand new high quality items, these will last for years and years to come.
- Replace all the electrolytic capacitors in the TEAC disc drive and clean the read / write head. This drive works perfectly.
- Configure the machine for RGB output to a TV. Scart lead included.
RF and RGB outputs are both very good for the age of the machine.
- Replace the on board power supply with a modern switch mode supply, the CISCO 34-0874-01. This supply is more than capable of powering the Einstein and runs much cooler than the original. This will ensure the machine receives the correct voltages for many years to come.
Please see the photo of the new supply in the original cage, the original power switch is retained and no visual differences at all from the outside.
I will include the original innards should you wish to re-fit them in the future.

- Remove a couple of kev switches which were causing issues and

replace them with new items.

- Fit heatsinks to all major IC's to help prolong their life.
- Run a diagnostic ROM to highlight any issues, none found.
- Test all the included software, all loaded correctly first time.
If you haven't used an Einstein before then be sure to read the manuals as there are several different methods of loading.
- Run the machine for several hours playing Chuckie Egg.
It ran well with no issues.

Included software:

- Einstein System master disc 3.0
- Starquake.
- Easidata.
- Tasword.
- Castle Quest.
- BBC Basic.
- TEN NOT TWO.
- F1 Simulator.
- Soul of a Robot.
- Apollo 11.
- Bumper Games Pack Volume 2.

All manuals are in very good condition and come in very handy in operating this amazing machine.

Please feel free to message any questions and please feel free to make an offer.

I have marked the PCB with intellipen and fitted an anti tamper sticker to the rear.

Thanks for looking.

Terms and conditions of the sale

Payment is to be made via pay-pal unless the item is a cash on collection item. None payment will be dealt with automatically by Ebay and results in a non payment strike. We aim to ship all items within 2 working days after purchase. Sometimes we may ship the same day and on occasion it may be 3 working days. If we are having a holiday the despatch time will be changed to 4 working days or we will switch Ebay holiday mode on and this will be clearly shown in each listing. We ship using a variety of carriers and use the one we feel is best suited to the item in question. Where an item needs additional protection for shipping we aim to use new packing material, where an item will not suffer from using recycled material for packing then we may use recycled material. We have traded on Ebay since 2011 and always try to describe our items correctly and price them fairly. We take customer satisfaction seriously and would always ask our custom contact us in case of an issue arising.

Returns policy

Table with 2 columns: Return period, Return postage. Row 1: 14 days, Buyer pays return postage.

Take a look at our Returning an item help page for more details. You're covered by the eBay Money Back Guarantee if you receive an item that is not as described in the listing.

The buyer is responsible for return postage costs.

Return policy details

Returns accepted
Most purchases from business sellers are protected by the Consumer Contract Regulations 2013 which give you the right to cancel the purchase within 14 days after the day you receive the item. Find out more as a buyer and exceptions .
