Item specifics

Condition: **For parts or not working:** ⓘ

Seller notes: "Hasn't been used in 30 years other than just recently to do a basic test on it. When tested it booted and loaded a disk and showed a correct picture on screen but I don't know enough about these to test it further. It is missing a foot as shown in photo, not a big issue but worth mentioning. One disk drive tested and loaded a disk. I understand some are double sided drives but I've no idea if this is. It could have other faults or missing parts but as not further tested it is listed as spares or repairs. It comes with the original box and polystyrene packaging although it is quite badly damaged, both the cardboard and the polystyrene. Please review the photos. The polystyrene is missing bits and has cracks in it. Packaging looks to have got damp at some point and warped along with other damage."

Model: Tatung Einstein

Brand: Tatung

Tatung Einstein TC-01 vintage/retro computer - spares or repair.

Hasn't been used in 30 years other than just recently to do a basic test on it.
