Brand: Tatung Einstein

Model: TC-01

This listing is for the Tatung Einstein Computer and accessories as pictured.

The computer boots up fine and I was able to load some games from one of the included disks without issue. Video was connected to a TV using the included video cable. Other ports have not been tested.

listing includes the Tatung Einstein TC-01 computer, five disks (I've only installed a couple of games from the 'games' disk. No idea what is on the other disks or 1985 copy of Einstein User and a video cable.

Will be shipped in a 65x55x18 box with total weight approximately 10kg. Pick up is fine also.
