Brand: Tatung

Model: Tatung Einstein

Twin drive Tatung Einstein TC01, tested and working as can be seen in the pictures.

Clean looking machine, case does show yellowing due to its age.

Keyboard feels good with no obvious stuck keys. All keys tested and appear functional.

Rear ports look clean with no bent pins.

Both drives tested and both drives worked with different disks reading each side. Green LED for side A and red LED for side B!

TV tuner works, but my big TV is too new to get a really stable picture and it kept jumping and showing static. I have not tested the RGB output.

Serial no: 6034497, so one of possibly the last batch of these machines produced?

A must for anyone's retro collection as these are fairly rare.

You will get:

1 x twin drive Tatung Einstein TC01 computer

1 x aerial lead to connect to an analogue TV

3 x ring bound manuals

(Nothing else is included)

Shipping via eBays Packlink, using UPS insured.

I will not ship this outside of the UK as the costs of shipping would be too excessive!!

Due to this machines age, i cannot guarantee how long it will keep running for, so there is NO Returns!
